## 6.0 Your Choices

- **Cookies.** We provide a variety of services on our Sites using cookies. We place cookies on your device to provide you with personalized access to essential services, enhance functionality, and show you offers and services tailored to your interests. A cookie is a small piece of data that a website can send to your browser, which may then be stored on your hard drive as a "tag" that identifies your computer. Cookies help to navigate from page to page on a website, provide secure connections, gather statistics about the usage

and effectiveness of our Sites, and remember preferences from a previous visit when you return. We use third-party services for analytics and interest-based advertising purposes. These service providers and ad partners may use cookies alone or in conjunction with unique identifiers, beacons, and other tracking technologies to collect information about you when you use our Sites, open our emails, or interact with our ads. Most web browsers automatically accept cookies, but you can change your browser settings to disable all or certain cookies if you wish. Please note that by disabling or deleting cookies, you may not be able to access the full functionality of our Sites. Disabling or clearing cookies also may affect cookie-based opt-outs by either preventing you from using such cookie-based opt-outs or clearing opt-outs that you previously set.

- **Do Not Track.** Because there currently is not an industry or legal standard for recognizing or honoring Do Not Track (“DNT”) signals, we do not respond to them at this time.
- **Location data.** You may opt out of having your location data collected by Dine at any time by editing the appropriate setting on your mobile device (which is usually located in the settings of your device) or by emailing [privacydesk@dinebrands.com](mailto:privacydesk@dinebrands.com), if applicable.

## 7.0 De-Identified/Aggregate Information

Dine may collect, use, share, transfer, and otherwise process de-identified and aggregated information that it receives or creates for any purpose at its sole discretion, in compliance with applicable laws. Dine is the sole and exclusive owner of such de-identified and aggregated information, including if Dine de-identifies Personal Information so that it is no longer considered Personal Information under applicable laws.

## 8.0 Data Automatically Collected

Dine uses Google Analytics to process Personal Information about your use of our Sites. Google sets cookies on your browser or device, and then your web browser will automatically send information to Google. Google uses this information to provide us with reports that we use to better understand and measure how users interact with our Sites.

To learn more about how Google uses data, visit [Google’s Privacy Policy](#) and Google’s page on “[How Google Uses Information From Sites or Apps That Use Our Services](#).” You may download the [Google Analytics Opt-Out Browser Add-On](#) for each web browser you use, but this does not prevent the use of other analytics tools. To learn more about Google Analytics cookies, visit [here](#).

We use third parties and/or service providers to provide interest-based advertising services. These services may serve advertisements on our behalf that are customized based on predictions about your interests generated from your visits to websites (including our Sites) over time and across different websites. The data collected may be associated with your Personal Information. These advertisements may appear on our Sites and on other websites and may be sent to you via email.

We use Google Ads to serve ads across various websites. Google uses cookies to collect data about your visits to our Sites to generate targeted advertisements to you on other websites that you visit. To opt out of this type of advertising by Google, customize your ad preferences, or limit Google's collection or use of such data, visit [Google's Safety Center](#) and [Google's Ad Settings](#) and follow [Google's Personalized Ad Opt-Out Instructions](#). Opting out will not affect your use of our Sites.

To change your preferences with respect to certain online ads or obtain more information about ad networks and online behavioral advertising, visit [National Advertising Initiative Consumer Opt-Out Page](#) or the [Digital Advertising Alliance Self-Regulatory Program](#). Changing your settings with individual browsers or ad networks will not necessarily carry over to other browsers or ad networks. As a result, depending on the opt-outs you request, you may still see our ads. Opting out of targeted advertising does not opt you out of all ads, just those targeted to you.

Google Maps. Our Sites contain maps provided by third parties and/or service providers for your convenience. Dine and such other parties may collect data about how you interact with the maps. For example, Google may collect usage data on maps embedded on the Sites. Even if you do not interact with the maps, Google may still collect certain information about your interactions with our Sites if you are signed into your Google account when accessing our Sites. Please see Google's [Privacy Policy](#) for more information.

## 9.0 Social Media

We are active on social media including, but not limited to, Facebook, YouTube, Twitter/X, Instagram, and LinkedIn (“**Social Media**”). Anything you post on Social Media is public information and will not be treated confidentially. We may post (or re-post) on the Sites and our Social Media pages any comments or content that you post on our Social Media pages.

Our Sites allow you to connect and share data with Social Media platforms. These features may require us to use cookies, plug-ins, and APIs provided by such Social Media platforms to facilitate those communications and features. Our Sites may use advertising networks and services offered by Social Media platforms to deliver advertising content. Use of these services requires Social Media platforms to implement cookies or pixel tags to deliver ads to you while you access the Sites.

## 10.0 Location of Our Sites

Our Sites are hosted and operated in the United States. However, we and our service providers may store information about individuals in the United States, or we may transfer it to, and store it within, other countries.

## 11.0 How Long We Retain Your Personal Information

your Personal Information to provide you with our Sites, Facilities, or other services; you have requested information from us; we have a legal right or obligation to continue to retain your Personal Information; we have an obligation to a third party that involves your Personal Information; our retention or recordkeeping policies and obligations dictate that we retain your Personal Information; or we have another business purpose for retaining your Personal Information.

## [12.0 Third-Party Links](#)

Occasionally, at our discretion, we may include or offer third-party products or services on our apps. These third-party sites have separate and independent privacy policies. We therefore have no responsibility or liability for the content and activities of these linked sites. We urge you to read the privacy policies of other websites before submitting any information to those websites. Please be aware that to submit job application materials online to work with us, you will be redirected from our Site to a website operated by our third-party service provider. You may be required to create an account with that vendor. We encourage you to review the terms and privacy policy posted on that vendor's website since this Privacy Policy does not govern your use of that website.

## [13.0 How We Protect Your Personal Information](#)

Dine has implemented reasonable physical, technical, and administrative security standards to protect Personal Information from loss, misuse, alteration, or destruction. We strive to protect your Personal Information against unauthorized access, use, or disclosure, using security technologies and procedures, such as encryption and limited access; however, we cannot guarantee the security of Personal Information during its transmission or storage on our systems.
